

2A_C Six Month Safety and Efficacy Evaluation _____

Name

Period

Seat

Read through the Pfizer Six Month Safety and Efficacy Report including the Supplementary Appendix.

Identify two categorical variables that you would like to evaluate for independence / association.

Summarize the data in a well labeled table.

Answer the question, “Do these data suggest an association between _____ and _____?”

Remember, the best analysis of data usually combines visual, numerical, and verbal descriptions (using proper vocabulary in context).
