	Time of Day		Overall
	Day	Night	
Moe	90 out of 100 90%	10 out of 20 50%	100 out of 120 83%
Jill	19 out of 20 95%	75 out of 100 75%	94 out of 120 78%

Moe

$$20(.5) + 100(.9) = \frac{100}{120} = \frac{100}{.83} \text{ overall average}$$

Jill

$$100(.75) + 20(.95) = \frac{94}{120} = \frac{94}{.783} \text{ overall average}$$
